All manuscripts submitted to JMS must be prepared according to the following guidelines:

1 Manuscripts must be double-spaced throughout (this includes Notes and References).

2 Papers should be carefully crafted and succinctly presented. Papers submitted to JMS are usually between 9,000 and 12,000 words. The allowable length of a paper is at the Editor’s discretion, however, papers submitted with a length exceeding 15,000 words may be returned to the author(s) for reduction before they will be considered by the Editors. The word count includes tables, figures and references. Supplemental material intended solely for review purposes, or for publication online only alongside a paper, does not count towards the word limit.

3 To permit anonymity, the authors’ names should not appear in the manuscript. Instead, a title page giving the title of the article and full identifying information (name, address, telephone and email address) must be included separately. The title of the manuscript should be on the first page of the paper along with the abstract and keywords. Language within the text that suggests the authors’ identities should be avoided.

4 The title page should be followed by an informative abstract of no more than 150 words double-spaced. A list of 4–6 keywords, in alphabetical order should be provided below the abstract. Keywords should express the precise content of the manuscript as they are used for indexing purposes.

5 Footnotes should not be used. Endnotes should be provided on a separate page immediately following the text under the heading NOTES. Endnotes should offer significant comment, not merely cite references. They should be kept to a minimum.

6 Authors must provide high quality artwork for all illustrations. Poor definition reproductions are not suitable. Tables and figures should be numbered separately. Tables use Roman numerals and figures use Arabic numerals (Table I, Table II; Figure 1, Figure 2). Each table and figure should be given a title and should be presented on a separate page at the end of the manuscript. Figures and tables reproduced from already published work must be accompanied by permission of the original publisher (or copyright holder, if not the publisher). Please indicate the position of figures and tables in the text as follows:

---

INSERT TABLE I ABOUT HERE
---

7 References should be listed alphabetically by author at the end of the manuscript. In the text, where the author’s name appears, the date should follow in parentheses, e.g., Mintzberg (1985). If the author’s name is not present in the text, insert it with the author’s name and date in parentheses, e.g., (Mintzberg, 1985).
Multiple references should be listed alphabetically in parentheses, separated by semicolons e.g., (Jackson, 1996; Watson, 1986).

Page numbers, to indicate a passage of special relevance or to give the source of a quotation, should appear in parentheses as (Willmott, 1992, p. 12).

If there is more than one reference to the same author in the same year, postscript the date with a, b, c, etc. e.g., (Sparrow, 1998a).
